- **Location:** Kenya

## Professional Summary

I am a highly motivated IT professional with a robust foundation in information technology, computer systems, and digital media. I have developed a broad range of technical skills, from software development and network administration to creative media production. Through professional attachments, personal projects, and initiatives such as **CREAVION MEDIA**, I have gained practical experience that equips me to tackle complex IT and media challenges. I am seeking high-end and remote opportunities where I can apply my skills and continue learning in dynamic environments.

## Education

### University Of Embu – Bachelor of Science in Information Technology

*Expected Graduation: [september, 2026]*

- Key coursework: Software Development, Database Management, Networking, Cybersecurity, Web Development, Multimedia Systems.

### Machakos Level 5 hospital – Industrial Attachment

- Gained hands-on experience in IT support, software deployment, and project management.
- Assisted in digital media and tech initiatives under professional supervision.
